EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please re-write claim 5 as follows-

5. An automotive closure panel according to Claim 4, wherein said anchoring member is affixed to a portion of said first hinge bearing retainer.

2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims in this application is that the prior art of record does not disclose or suggest an automotive closure panel including a full floating torsion bar hving a first end rotationally grounded within the interior space of the door and a second engaged with and rotationally locked with the second bearing insert wherein the second bearing insert is engaged with the second pivot post such that the pivot post and the second bearing insert are rotationally locked. Westerdale et al. disclose an automotive tailgate with a full floating torsion bar. However, Westerdale et al. do not disclose a second pivot post or that the second end of the full floating torsion bar is rotationally locked with the second bearing insert.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
